

ENDLESS WAKE ADVENTURES

≈ 15 TIPS ≈

for Safe Boating With Kids

1

LIFE JACKETS

Always ensure that every child on the boat wears a properly fitting life jacket. It's crucial for their safety, even if they know how to swim.

2

SUPERVISION

Children should be closely supervised at all times when on a boat. Keep a vigilant eye on them, especially if they're near the water.

3

EDUCATE ABOUT BOATING SAFETY

Teach your kids about basic boating safety, such as the importance of not leaning over the side, not running on board, and understanding basic navigational rules.

4

SUN PROTECTION

Protect your children from the sun by making sure they wear sunscreen, sunglasses, and hats. You can also create shaded areas on the boat.

5

PLAN AHEAD

Before setting out, ensure you have enough food, water, and supplies for the children. Hungry or thirsty kids can become irritable quickly.

6

AGE-APPROPRIATE ACTIVITIES

Depending on their age, provide age-appropriate activities to keep kids entertained. Books, coloring, or simple games can help make the trip enjoyable.

7

STAY HYDRATED

Ensure your children drink plenty of water to prevent dehydration, especially on hot days.

8

BOATING RULES

Teach your children the rules and etiquette of boating, such as not throwing trash overboard and respecting other boater's space.

9

EMERGENCY PREPAREDNESS

Make sure your children know what to do in case of an emergency, like how to use life jackets and where the safety equipment is stored on the boat.

10

PRACTICE SWIMMER SAFETY

If your children are old enough to swim, make sure they understand where it's safe to swim and how to enter and exit the water safely.

11

BOAT SIZE

The type and size of the boat matter. Smaller boats may not be as suitable for young children, so consider this when planning your boating activities.

12

WEATHER CONDITIONS

Be aware of weather conditions, and don't venture out if there's a storm on the horizon. It's best to prioritize safety over a boat trip.

13

BOAT EDUCATION

Consider enrolling your children in a boating safety course, especially if you plan on spending a lot of time on the water. This can help them become familiar with boating rules and safety practices.

14

BE A ROLE MODEL

Show your kids how to behave safely and responsibly on the boat. They often learn best by example.

15

BOAT MAINTENANCE

Ensure the boat is in good working condition and has all the necessary safety equipment on board, including life jackets, flares, first aid supplies, and fire extinguishers.
